## **DETAILED ACTION**

### ***Election/Restrictions***

Claims 1-7,14,15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 3/5/02.

### ***Claim Rejections - 35 USC § 112***

Claims 8-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Is the apparatus in the first 7 lines of claim 8 being positively claimed?

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8-10,12,13 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Van Haag or Arav. Both patents show the claimed apparatus including a common regulator for the respective bearings. The manner in which the fluid is regulated by the regulator would have been a design choice only. Therefore, it would have been obvious for one of ordinary skill in the art to modify either Van Haag or Arav by programming the regulator to provide for the claimed fluid ratio, since such a modification would have been an obvious design choice only.

***Allowable Subject Matter***

Claim 11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
